ACERBIS PROFILE 2.0 – KIDNEY BELT

1. Intended use

This product is intended for use when riding a motorcycle, particularly in motocross, enduro and general motorcycling. The kidney belt provides support to the lumbar area, while its flexible construction allows freedom of movement during sporting activities.

This product does not replace other protective equipment required for the relevant sport or a certified back protector.

2. Limitations of use

Changes in environmental conditions, especially temperature and humidity, may affect the properties of the product. Any modifications, changes to its original design or improper use may reduce its functionality.

Use the product only for its intended purpose and in accordance with these instructions. Do not modify the product.

3. Inspection before use

Before each use, check that the product is complete, undamaged and in good technical condition. Pay particular attention to the following parts:

- the condition of the textile parts and seams
- the elastic sections
- the rear reinforcement
- the functionality of the hook-and-loop fastening

Do not use the product if you notice material damage, torn seams or a fastening that does not work properly.

The product must be in good condition and correctly fitted before use. If it is damaged or you have any doubts about its functionality, stop using it.

4. Selecting the correct size

The product is available in sizes S/M and L/XL. Choose a size suitable for the user's build and in accordance with the manufacturer's sizing information.

The belt must fit snugly and stay in place. It must not restrict breathing, cause uncomfortable pressure or limit freedom of movement.

5. Fitting and adjusting the kidney belt

Before fitting the belt, check that the product is complete and in good condition.

Position the kidney belt around the waist so that it fits correctly over the lumbar area. Adjust the fit using the double hook-and-loop fastening.

The belt must stay securely in place without restricting breathing or freedom of movement. Before riding, check that it is correctly positioned and securely fastened.

6. Care, maintenance and storage

Follow the manufacturer's care instructions on the product label. Do not use cleaning methods that could damage the textile, elastic or other structural parts of the belt.

After use, allow the product to dry thoroughly. Do not store it while damp or expose it directly to heat sources.

Store the product in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to extreme temperatures and deformation.

Inspect the product regularly. If it is damaged or deformed, stop using it.

7. Disposal

At the end of its service life, dispose of the product in accordance with local waste-disposal regulations.

Keep the packaging out of the reach of children to avoid the risk of suffocation.

8. Manufacturer and importer information
