BAKET KIDNEY BELT – KIDNEY BELT

0025480

1. Intended use

This product is intended for use when riding a motorcycle or bicycle. The kidney belt provides support and helps stabilise the lower back area during sporting activities.

The product does not replace other protective equipment intended for the relevant sport.

2. Limitations of use

Changes in environmental conditions, particularly temperature and humidity, may affect the properties of the product. Any modifications, changes to its original design, or improper use may reduce its functionality.

Use the product only for its intended purpose and in accordance with these instructions. Do not modify the product.

3. Inspection before use

Before each use, check that the product is complete, undamaged and in good condition. Pay particular attention to the following parts:

- the condition of the textile parts and seams
- the fastening straps
- the functionality of the hook-and-loop fastening

Do not use the product if you notice material damage, torn seams or a fastening system that does not work properly.

The product must be in good condition and correctly fitted before use. If it is damaged or you have doubts about its functionality, stop using it.

4. Choosing the correct size

Choose a size that corresponds to the user's waist circumference. The belt must fit properly and stay securely in place without restricting breathing or freedom of movement.

5. Fitting and adjusting the protector

Before fitting, check that the product is complete and in good condition.

Position the kidney belt around your waist so that it fits correctly over the lower back area. Use the adjustment straps to set the circumference and fasten the hook-and-loop closure so that the belt stays firmly in place without restricting breathing or freedom of movement. Before riding, check that the belt is correctly positioned and securely fastened.

6. Care, maintenance and storage

After use, allow the belt to dry at room temperature in a well-ventilated area. Do not tumble-dry it or dry it near radiators or other heat sources.

The kidney belt may be gently washed in lukewarm water at a temperature of up to 30 °C. Allow it to air-dry after washing.

Store the product in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to extreme temperatures, excessive loads and deformation.

For disinfection, use a disinfectant spray intended for sports and motorcycle equipment, provided it is suitable for the material.

Check the condition of the product regularly. If it is damaged or deformed, stop using it.

7. Disposal

At the end of its service life, dispose of the product in accordance with local waste-disposal regulations.

Keep the packaging out of the reach of children to prevent the risk of suffocation.
