ROOST DEFLECTOR P035 – 0026484 – INSTRUCTIONS FOR USE

1. Intended use

This product is a protective device intended to protect the rider when riding a motorcycle. It is designed to help reduce the severity of injuries caused by impact without restricting the ability to control the motorcycle.
The protector is personal protective equipment (PPE) providing limited protection against mechanical impacts in the event of a fall.

THIS PROTECTOR HELPS REDUCE THE SEVERITY OF INJURIES CAUSED BY IMPACT.
NO PROTECTOR CAN PROVIDE ABSOLUTE PROTECTION AGAINST ALL POSSIBLE IMPACTS!
NO PROTECTOR CAN PROVIDE PROTECTION AGAINST ALL INJURIES CAUSED BY TWISTING OF THE BODY OR SUDDEN MOVEMENTS.
Always use the protector together with other appropriate protective equipment, especially a motorcycle helmet, gloves and boots.

2. Materials and manufacture

The synthetic and natural materials used, as well as the manufacturing processes, have been selected with regard to the requirements of European technical standards concerning the safety, ergonomics, comfort, durability and health safety of the product.

3. Limitations of use

The protector is intended exclusively for use during motorcycle sporting activities and must not be used for any other purpose than that for which it was designed.
Changes in environmental conditions, particularly temperature and humidity, may affect the protective properties of the protector. Any modifications to the product, changes to its original design or incorrect use may reduce its protective function.
Use the protector only for its intended purpose and in accordance with these instructions. Do not modify the product in any way.

4. Inspection before use

Before each use, check that the protector is complete, undamaged and in good technical condition. Pay particular attention to:
• the condition and attachment of the protective elements,
• seams and textile parts,
• fastening straps and hook-and-loop fasteners,
• buckles and sliding adjusters,
• the functionality of the fastening system.
If you find cracks, torn seams, damaged parts, malfunctioning buckles or hook-and-loop fasteners that do not hold, do not use the protector.
The protector provides the declared level of protection only when it is undamaged, retains its original properties and is correctly fitted. In case of damage or any doubt about its functionality, stop using the product and replace it with a new one.

5. Laboratory testing and level of protection

According to the manufacturer's information, the protector has been laboratory tested in accordance with the requirements of the following standard:
• EN 14021:2003
The level of protection is determined by the protector's ability to limit the transmission of impact force.

6. Selection of the correct size

Select a size appropriate for the user's body. The protector must fit correctly against the body and must not constrict or restrict movement while riding.
The length of the back protector must correspond to the user's height and ensure correct positioning of the protective elements.

7. Fitting and adjustment of the protector

Before putting on the protector, check that the product is complete and in good condition.
1. Put the protector on over your head. The position of the protector can be adjusted according to the user's height using the hook-and-loop fasteners on the shoulders.
2. Fasten the protector around the body using the elastic belt with buckle. Adjust its length using the sliding adjusters so that the protector remains securely in place.
3. Check that all fastening elements are correctly fastened and that the protector remains in the correct position during movement.
The protector must always be correctly fitted and secured in order to provide the declared protection.

8. Care, maintenance and storage

After use, allow the protector to dry in a well-ventilated place at room temperature. Do not dry it in a dryer or near radiators or other sources of heat.

If soiled, remove dirt with a damp cloth. Do not wash the protector under running water, do not use chemicals for cleaning and do not dye the product.
Store the protector in a dry and well-ventilated place. During storage, protect it from direct sunlight, prolonged exposure to excessively high or low temperatures, and excessive loading or deformation. Disinfect using a disinfectant spray intended for sports and motorcycle equipment.
Regularly check the condition of the product. If it is damaged, deformed or you have doubts about whether it retains its protective properties, stop using it and replace it with a new one.

9. Disposal

At the end of the product's service life, dispose of it in accordance with local waste-management regulations.
Keep the packaging out of the reach of children to prevent the risk of suffocation.

10. Declaration of conformity

The EU Declaration of Conformity in Czech is available at:
https://www.mefo.cz/acerbis-chranic-hrudi-roost-deflector-p035
